“McIntosh Electrical is committed to offering a scalable, custom-designed, and cost-effective solution to integrating EV Charging for strata committees and individual apartment owners.

EASY AND FUTURE-PROOF

Our accredited and licensed Gold Master Electricians provide customised system design, with your long-term building power load solutions in mind, to suit your unique needs, not just a charger box. Our electricians are highly trained, only providing the highest quality installations, total compliance, and free expert advice. All charger installations are completed through an active Safety System with Bi-annual safety checks and inspections on charger systems, all part of the service.”
